Cory Sanderson, Vice President of Sales and Marketing, KOEPFER America, LLC

8:40 am

History of Haas

Bob Murray, Director of Operations, Haas Automation, Inc.

9:10 am

State of Manufacturing, Part I

Pete Ray, Director of Business Development, Earl M. Jorgensen

This presentation will provide an overview of the current economic conditions from a steel supplier's perspective. The focus will be a forecasting / consumption discussion, as steel is a good indicator of the manufacturing environment.

9:55 am

State of Manufacturing, Part II

Bob Murray, Director of Operations, Haas Automation, Inc.

The discussion continues with the current economic conditions from the machine tool manufacturer's perspective, since machine tool sales are also an indicator of today's manufacturing environment.

10:00 am

Q&A/Break

10:45 am

Tools to Weather an Economic Downturn

Rick Fullington, President and CEO, Milwaukee Gear

Are you always comfortable understanding and analyzing your company's financial statements? During this session, Rick Fullington will address the areas where companies need to focus during difficult economic times.

Do not expect just a financial discussion, but one that is a broad, comprehensive view.

11:45 am

Q&A

12:00 noon

Lunch hosted by Haas Automation, Inc.

1:00 pm

Manufacturing in a "Green" Economy

Haas Representative

Today, you hear everyone discussing "green" issues. Let Haas answer your questions on what "green" efforts they are undertaking as a manufacturer of machine tools and what technologies they are putting into place to make the machines more "green."

1:30 pm

AGMA Energy Efficiency Initiative

Dave Ballard, AGMA Chairman, and SEW-Eurodrive, Inc., Corporate Manager

Did you realize that manufacturing consumes more energy than almost any other sector of the U.S. economy? Faced with that reality, find out what collaborative efforts AGMA is proposing and how your company can meet the demands of increasing energy prices and limitation to our energy supply.

2:00 pm

Tour of Haas Automation

4:00 pm
