

A Great Start for the Annual Campaign

The generosity of AGMA members has launched the Foundation Annual Campaign to a great start, with some \$43,000 raised in the first weeks! An email to members kicked off the campaign in mid-July, with those making early pledges designated as "champions" of the campaign. All champions and contributors to date are listed below. Funds raised through the campaign support projects to advance the gear industry. Following are recent projects supported with Annual Campaign funds.

- AGMA's Detailed Gear Design Seminar, which has sold out three times, and a new Gearbox Failure Seminar that will be presented in early 2007.
- The Gear Research Institute's Visioning & Road-mapping Workshop. A free copy of the workshop report is available at www.agmafoundation.org.
- AGMA's Workforce Education Program for Machine Operators. The program's first two modules are available at www.agma.org.
- Where You Want To Be: An Introduction to the

Gear Industry is now available on CD and over the web. Email foundation@agma.org for a free copy.

- Funding for research on hypoid gear efficiency at Ohio State University. Results from year one are available at www.agmafoundation.org, and results from year two will be available in 2007.
- Aachen University's research on PVD coating and gear life. Visit www.agmafoundation.org for information on obtaining a copy of this groundbreaking report.

You can still support the Annual Campaign by visiting www.agmafoundation.org to contribute online or to download a pledge card to mail or fax to our office. Contributions to the AGMA Foundation, a 501(c)(3) charity, are tax-deductible as charitable contributions. All contributors will be recognized on the foundation website and on signs at the 2007 AGMA Annual Meeting. For more information on the AGMA Foundation please visit www.agmafoundation.org or call (703) 838-0065.

Thank you for your support!
